About

I am currently an AI Research Scientist at Institute for Software Integrated Systems, Vanderbilt University, TN, USA. Prior to that I was also a postdoc at Vanderbilt University. I received my PhD in Computer Science from Information Technology University (ITU) under the supervision of Dr. Saeed Ul Hassan and Dr. Mudassir Shabbir and was a member of Artificial Intelligence Lab. I conduct research in the areas of data science and machine learning, with emphasis on deep learning on graphs, social network analysis and graph theory with applications in Anhedonia detection, drug discovery and development, social networks and education. I actively participate in top conferences and journals in these domains, contributing through both publications and serving as a PC member. My work has been published in renowned venues such as NeurIPS, Neurocomputing, Applied Soft Computing, and TKDE.

Experience

- **AI Research Scientist** Oct. 2023 - Present
Institute for Software Integrated Systems,
Department of Computer Science,
Vanderbilt University, TN, USA.
Area: Graph machine learning and its applications
- **Graph Data Scientist** May 2021 - Mar. 2022
BUILD & CODE Germany
As a Graph Data Scientist, my responsibilities include developing advanced machine learning models for the completion of a huge knowledge graph, which contained over 10 billion data points. It was a challenging but rewarding experience to work on a project of such a massive scale, and it allowed me to gain valuable experience in handling and processing big data. I worked on a range of advanced machine learning techniques, including Graph Neural Networks (GNNs), classical ML methods, Neo4J and Cypher.
- **C++ Programmer** Jul. 2014 - Sep. 2017
Shaheen Foundation, Islamabad

As a C++ programmer, my role primarily revolved around the development and implementation of advanced QT applications for a diverse range of clients. I worked in close collaboration with a team of professionals, where my responsibilities involved not only the programming aspects but also requirement engineering, model prototyping, testing, and seamless deployment of high-quality solutions. My proficiency in C++ programming and extensive experience with QT allowed me to deliver bespoke solutions that met the unique and complex requirements of the clients.

Education

Postdoctoral Research Scholar

Mar. 2021- Sep. 2023

- Institute for Software Integrated Systems,
Department of Computer Science,
Vanderbilt University, TN, USA.
- Advisor: Prof. Xenofon Koutsoukos
- Area: Graph machine learning and its applications

	Ph.D. Computer Science <div> <ul style="list-style-type: none"> Information Technology University, Lahore, Pakistan Advisors: Prof. Saeed-Ul Hassan, Prof. Mudassir Shabbir <i>Dissertation:</i> Novel Graph Representations for Machine Learning Applications </div>	Nov. 2021
	M.Phil. Computer Science <div> <ul style="list-style-type: none"> Quaid-i-Azam University, Islamabad, Pakistan <i>Dissertation:</i> Discovering Community Structure of Complex Networks Major Area of Study: Social Network Analysis, Graph Theory Minor Area of Study: Artificial Intelligence </div>	Aug. 2016
	M.Sc. Computer Science with Distinction <div> <ul style="list-style-type: none"> University of Swat </div>	Dec. 2013
Research Experience	Vanderbilt University Postdoctoral Research Scholar Research Interests: Graph Machine Learning, Graph Descriptors, Circuit Design Completion, Data Science, Graph Theory	Mar. 2022 - Present
	Information Technology University, Lahore PhD Fellow Projects: Graph Machine Learning, Social Network Analysis, Altmetrics, Ethereum Network Analysis, Call Data Record Analysis, Federated Learning	Sep. 2017 - Oct. 2022
	Master Student: Quaid-i-Azam University, Islamabad Research areas: Community detection in social networks, Genetic Algorithms, Machine Learning	Aug. 2016 - Sep. 2017
Teaching Experience	Information Technology University, Lahore Teaching Assistant for: <div> <ul style="list-style-type: none"> Advanced topics in social Network Analysis (Spring 2018) Information retrieval (Fall 2018) Database (Spring 2019) Data Science (Fall 2019) Data Structures (Spring 2020) </div>	Aug. 2018 - June 2020
	Instructor at Hira and Khyber Technical College, Kabal, Swat <div> <ul style="list-style-type: none"> Physics (Undergrad/college level) Surveying (Undergrad/college level) Mathematics (Undergrad/college level) Chemistry (college level) </div>	2009-2011

Awards and Honors

- Recipient of the Vanderbilt University, *Postdoctoral Research Scholar Fellowship*
- Recipient of the *travel grant* for attending the “Youth in High Dimensions: Machine Learning, High-dimensional Statistics, and Inference for the New Generation” Conference, 2020, ICTP, Trieste, Italy.
- Recipient of the Information Technology University, *Ph.D. Fellowship*
- Recipient of the *Gold Medal* from University of Swat for achieving highest academic ranking

Tools Developed

- I have developed NeuroGraph, a tool for preprocessing fMRI data and graph-based neuroimaging benchmarks. For more details, visit NeuroGraph’s website, documentation and paper
- Released an initial version (WiP) of our web-based application for benchmarking graph neural networks (2023). (Link to the app)
- Released a python package with reproducibility check by CodeOcean for our graph augmentation framework appeared in publication entitled “On Augmenting Topological Representations for Attributed Graphs”, Applied Soft Computing, 2023. (Link to the package)
- Released a python library for our graph descriptor appeared in publication entitled “DGSD: Distributed graph representation via graph statistical properties”, Future Generation Computer Systems (2021). (Link to the package)
- Released Python package for CC-GA, our community detection algorithm appeared in publication entitled “CC-GA: A clustering coefficient based genetic algorithm for community detection in social networks (2018)”. Every two weeks, this repository has an average of **100** number of clones. (Link to the package)

Publications

Under review

Volunteering as PC Member/Co- organizer	• (PC Member) - GTA ³ : The 7th Workshop on Graph Techniques for Adversarial Activity Analytics, IEEE Big Data Conference 2023, Sorrento, Italy	
	• (PC Member) - SIAM International Conference on Data Mining (SDM'24)	
	• (PC Member)- The 17th Annual Vanderbilt Postdoctoral Association Symposium 2023, TN, USA	
	• (Co-organizer) KDD23 Data Science for Social Good Workshop at Long Beach, USA	
Referee Services Conferences	• International Conference on Machine Learning (ICML)	2020 - Present
	• Neural Information Processing Systems (NeurIPS)	2021 - Present
	• Knowledge Discovery and Data Mining (SIGKDD)	2023 - Present
	• International Conference on Web and Social Media (ICWSM)	2023-Present
	• International Conference on Learning and Representations (ICLR24)	
Referee Services Journals	• Information Sciences Elsevier	2022 - Present
	• Big Data Research Elsevier	2022 - Present
	• Network Science	2022 - Present
	• Swarm and Evolutionary Computation (Elsevier)	2017 - Present
	• IEEE Access	2019 - Present
	• IEEE Transactions on Computational Social Systems	2020-Present
	• ACM Transaction on Social Computing	2020-Present
Mentoring (not an advisor)	Quaid-i-Azam University, Islamabad	
	• Attaullah, M.Phil. Computer Science	2022
	- Co-authored "Identifying Misinformation Spreaders: A Graph-Based Semi-Supervised Learning Approach" Multimideia Eval 2022	
	• Sajjad Athar M.Phil. Computer Science	2021
	- Co-authored "ASBiNE: Dynamic Bipartite Network Embedding for Incorporating Structural and Attribute Information" ES2021	
	Information Technology University, Lahore	
	• Muhammad Ali, Master in Computer Science	2022
	- Co-authored "MSDGSD: A Scalable Graph Descriptor for Processing Large Graphs" ITCSS 2022	
	• Ammar Ahmed, Bachelor of Computer Science	2020
	- Co-authored "Sequential Graph Neural Networks for Source Code Vulnerability Identification" HotSoS2023	
	• Muhammad Huzaifa, Bachelor of Computer Science	2019

Invited talks/guest lectures

- Gave a guest lecture at Tennessee State University on “Machine Learning at the Forefront of Molecular Analysis” (march 2023)
- Graph Machine Learning in Circuit Design Completion 2022
Vanderbilt Postdoctoral Association Symposium
- Graph Neural Networks for Knowledge Graph Completion 2022
Build & Code
- On the Analysis of Cryptocurrency Networks 2021
Blockchain Lab, ITU
- Community Detection in Social Networks 2020
Intelligent Machine Lab, ITU
- Network Analysis for Social Good 2020
STI conference 2020

Certification (courses)

- Responsible Conduct of Research course (RCR) (Vanderbilt) 2022
- RCR training (Vanderbilt) 2022
- Social Network Analysis (Vanderbilt)
- Deep Learning (Coursera)
- Machine Learning (Coursera)
- Probability Theory (Coursera)
- Linear Algebra (Online MIT)
- Graph Machine Learning (Online Stanford)
- Social Network Analysis (Online Stanford)
- 1-year survey diploma (KPK TTB)
- MS Office (SDC Peshawar)
- AutoCAD (SDC Peshawar)

Volunteering

- Volunteer services for Islamic Center of Nashville during Ramadan (2023)
- Member of VPA Symposium planning committee (2023)
- Volunteer at ICML 2021
- Volunteer at NeurIPS 2022
- Intro to CS @ Govt. Middle School Dhero (middle school students) 2020
- Intro to AI @ Govt. High School Kabal (high school students) 2019
- Intro to OOP @ Govt. JPG Swat (undergraduate students) 2019
- Volunteer flood relief in Swat 2011
- Volunteer with “save the children” NGO, Swat 2010
- Volunteer earthquake relief in Abbottabad 2005

Programming Tools

- Python, Networkx, TensorFlow, Scikit-learn, PyG, PyTorch, Deep Graph Library, Multiprocessing, SQL, Neo4J, Cypher, C++, AWS, Jira, iGraph, Message Passing Interface (MPI), Socket Programming, Tableau, Docker, MLOps, Streamlit

Research Impact

Number of citations: 287
Impact factor: 69
